

CS110 Homework #1

Due Wednesday, January 21st, end of day. Typically assignments will be assigned on Wednesday and due the following Wednesday.

1. Submit a MS Word document with the following completed exercises from the end of Chapter 2:
 - a) Multiple Choice/True False – all (just the number and answer is adequate)
 - b) Algorithm Workbench – 2, 4, 7, 9, 10

Be sure your name is on the document

2. Complete Programming Challenge #9.

3. Complete Programming Challenge #17.

You will submit three files; one MSWord document and 2 .java programs. Do not submit the .class files.

Grading

Multiple Choice, True/False 1 pt each (20 points total – there are 21, only 20 best counted)

Algorithm Workbench 3 pts each (15 points total)

#2 30 points

#3 35 points

(10 points deducted if program header is missing from either program)

Any work you submit for this assignment should be authored entirely by yourself. Assistance is permitted from the instructor or teaching assistants only. All submitted programming assignments are subject to originality verification through software designed and used for the Measure Of Software Similarity (MOSS).
